# iv intelligence Update and Proposed Strategy Changes

# Progress since last Authorisation / Review (Include the following details)

- ( i) Do the criteria for authorisation continue to be met?
  - ii) State every respect in which the information in the previous application has changed.
  - iii) Detail why it is necessary to continue with the authorisation(s).
  - iv) Detail the justification for the participation of the UCO and/or CHIS.
  - v) Detail the value to the investigation or operation of the product obtained so far.
  - vi) Proposed strategy (in consultation with the Specialist Operations Unit).

This use and conduct was authorised by ACC Sampson on the 29<sup>th</sup> January 2007 and renewed by Acting ACC John Parkinson on the 22<sup>nd</sup> January 2008.

This review is submitted in order to update the Authorising Officer on the progress of the operation-since its last-review at the end of April 2008:

#### Do the criteria for authorisation continue to be met?

The Operation is still relevant and all criteria detailed in the authority to deploy are still met.

State every respect in which the information in the previous application has changed.

Detail why it is necessary to continue with the authorisation.

See Also Appendix 'A'

Previous review remains accurate.

aurope.

Detail the justification for the participation of the UCO

UCO 133-is currently authorised to participate in minor crime, minor criminal damage, obstruction and trespass. It is this participation status that has allowed UCO 133 to develop his legend amongst activists and get to the position of trust which allows them to have access to particularly accurate pre emptive intelligence. Participation also protects their safety by removing suspicion from them.

During the past 2 months UCO 133 had assisted in the following direct actions:

On Friday 13<sup>th</sup> June 2008 UCO 133 took part in a demonstration against the use of fossil fuels close to Drax power station in Yorkshire. The UCO took a very minor role in driving some of the 30 activists involved to the scene and then leaving. He was not involved in any criminal offences on the railway. Pre emptive intelligence was past to the British Transport Police together with real time intelligence enabling them to assess the dangers and consider suitable actions to reduce those risks. They were also able to direct resources from around the country in order to deploy the correct numbers of suitably trained officers to the scene in quick time.

29 activists were arrested currently on police bail whilst the investigation continues, 15 homes searched and 20 computers seized.

CONFIDENTIAL Detail the value to the investigation or operation of the product obtained so far. strategy remains the same as that detailed in the renewal of this authority dated 28th January 2008, namely :-To continue to develop their legend through attendance at meetings, actions, demonstrations and social events. Where possible to identify evidential opportunities to effect the arrest and prosecution of those members of groups who seek to hijack legitimate protest to commit acts of criminality and public disorder. Where evidential opportunities are not available, to provide pre-emptive intelligence to prevent or disrupt those members of the above groups intending to perpetrate acts of criminality and/or public disorder.

	2 Collateral Intrusion	
	Comment upon any collateral intrusion and state method adopted to minimise the same:	
	It is very rare for collateral intrusion to occur because spends the majority of their time with like minded people engaged in activism.  does have contact with 'non activists' (neighbours etc) which is unavoidable whilst appearing to live a inormal' life but no product from these contacts is reported or retained.	
	Is an experienced UCO well aware of their unique situation in the lives of members of the public	
j	and remains entirely focussed on the objectives and subjects of the authority.  The SIO and operational team will through a process of continuous review seek to minimise such intrusion.  Should information of this type come into Police possession, it will be dealt with in a secure manner in	
	accordance with current CPIA and MOPI guidelines.  3. Confidential Material  Where there is a likelihood that "confidential material" will be accessed and/or acquired in the course of deployment; pr where such material has been accessed or acquired. Give details	T
	There is little likelihood of acquisition of confidential information as a result of this authority at this time.  4. Risk Assessment	
İ	Any change from original risk assessment must be detailed

# 1. Intelligence Undate and Proposed Strategy Changes

# Progress since last Authorisation / Review (Include the following details)

- i) Do the criteria for authorisation continue to be met?
- ii) State every respect in which the information in the previous application has changed.
  - iii) Detail why it is necessary to continue with the authorisation(s).
  - iv) Detail the justification for the participation of the UCO and/or CHIS.
  - v) Detail the value to the investigation or operation of the product obtained so far.
  - vi) Proposed strategy (in consultation with the Specialist Operations Unit).

his use and conduct was authorised by ACC Sampson on the 29<sup>th</sup> January 2007 and renewed by Acting ACC John Parkinson on the 22<sup>nd</sup> January 2008.

This review is submitted in order to update the Authorising Officer on the progress of the operation to date and to add Sandra Gobels and Julien Coupat to the subjects authorised for specific infiltration by the UCO and Operation Pegasus.

#### Do the criteria for authorisation continue to be met?

The Operation is still relevant and all criteria detailed in the authority to deploy are still met.

#### State every respect in which the information in the previous application has changed.

Other than the intelligence / information on Sandra Gobels contained in this review there are no changes to the information contained in the renewal of January 2008.

Detail why it is	necessary to cor	tinue with the aut	họrisation.

# NATIONAL INTELLIGENCE REPORT CONTINUATION SHEET

(Form B) INTEL SOURCE or REPORT INTEL REF No. U.R.N. (I.S.R.) **OPERATION NAME NUMBER** Intelligence states that the activists have Arm Tubes made of solid steal and they will be clipped on inside with carabineers. Past 0829. Intelligence states that The media have been told and there is a professional photographer there who is on side with the activists and has access to mainstream media. Past at 0829. Intelligence states that the activists have done a lot of research into rail safety. They have completed a full risk assessment which they intend to show the court to show that they are not reckless people but are pursuing a genuine claim concerning climate change. They briefed everyone that this was not an action against the police and that there should be no resistance but that they had a message to send. Past at 0829 Intelligence states that activists arrived from all over the UK and the briefing went on till 0200 this morning it was meticulous. Past 0829 8. Intelligence states that 2 activists dropped out saying that they did not realise it was a direct action and thought it was just a protest. Past to NPOIU 16th June. Intelligence states that One activist called backed out saying he would do legal advice instead. He was not happy about being kept on the barge overnight and thought they would be returning later to do the action. He asked for everyones names to be written on a plece of paper with next of kin, addresses and contact details. This made some people suspicious of him saying that they were not happy with him holding all their names in case the police got hold of it and used it to prove a conspiracy. He was supported by a tall white guy from the West Midlands with a shaved head who said Past to the NPOIU 16th June 2008. that he trusted 10 Intelligence states that the action must have been funded separately because those taking part would not have had the funds. There was all new climbing equipment including a whole roll of rope (£400) and new harnesses and fittings. 40 new reflective coats flags, buckets and shovels. Hiring of vehicles and the barge to stay on overnight. Past to the NPOIU 16th June 2008. Intelligence states that in connection with the stopping of train at Drax power station The activists were split into cells with only those involved in a specific roll would have been given details like the rope access men would have recce'd the bridge to know what equipment they needed. The majority of the foot soldiers did not know the venue of the action until they arrived at Goole. No one was even told where the accommodation was until they got to the Goole area. ..... PUBLIC INTEREST IMMUNITY SHOULD BE SOUGHT YES Form B

1106

Call from Source

Discussed plan for tomorrow and the need for me to be updated asap.

1420

Call from Source who has hired a Renault Traffic Van NV57 FYA from Eurocar. £250 deposit because Source did not have a credit card.

I discussed with Source the dangers of anyone going on the tracks and our responsibility to them as to duty of care. Including to the driver of the train.

All people involved are switched on and very safety conscious.

1615

Call from DI Hutcheson re arrangements to meet with Supt Wilson and CI Flood.

1645

Meeting place and time confirmed with DI Hutcheson.

1820

Call from Source who is staying on a barge at Goole Maritime Museum. People from all over the country are expected including Manchester and London. says they can sleep 30 on the barge.

Source has offered to cook to give Source the chance to get out and make contact. Those present are saying that it is unlikely that they will make it to wedding. They accept that Source has to go as Source is delivering the wedding marquees.

1830

DI Hutcheson updated.

1843

Call from DI Hutcheson who has spoken to ACC Pavey who instructs us to contact Supt Phil Trendle with updates.

I am to pass info to DI Hutcheson in the first instance.

2000 Text from Source 'Aire railway bridge'

2005

I updated DI Hutcheson.

2015

Map research

The river Aire runs under the rail line to Drax.

2130 (approx)

Call from DS Trimble BTP SB. Long discussion about the fact that it now appears to be 30 people and could it be that the action Source is on is a diversion for a bigger action elsewhere and could it be that they will go early and take action overnight or would they delay until Saturday as per the original intelligence.

I told DS Trimble that it was my assessment that they would not deploy overnight and that they would stick to the 0630 plan.

That I now believed the intelligence about 30 people doing an action on Saturday must be the same job as this one and that the original Source had got the day wrong.

I said that it was unlikely that the activists would arrive an extra 24 hours early because it increased the risk of discovery.

# Friday 13th June 2008

0625 Text from DI Hutcheson 'Any news'

I text back 'No not yet'

0706

I text DS Trimble that I had no update as yet.

0809

Call from Source

1. Its going down now, I have just dropped them off near Gowdall there is a second van dropping others off on the other side of the river. 40 people in total. They have red flags and all have orange tabards. It is all about safety.

I immediately briefed Supt Trendle, DS Trimble and DI Hutcheson Supt Trendle said that they would wait until it had been reported by a rail worker or member of the public before reacting.

0822 Call from Source

- 2. There are 2 rope access people who will be putting ropes across the rail line above the track and suspending themselves from them in harnesses to make it difficult for the police.
- 3. They intend to undo the coal carriages underneath to let the coal out onto the track They are not sure if you need a special key or not.
- 4. They have Arm Tubes made of solid steal and the will be clipped on inside with carabineers.
- 5. The media have been told and there is a professional photographer there who is on side with the activists and has access to mainstream media.
- 6. They have done a lot of research into rail safety.

  They have completed a full risk assessment which they intend to show the court to show that they are not reckless people but are pursuing a genuine claim concerning climate change. They briefed everyone that this was not an action against the police and that there should be no resistance but that they had a message to send.
- 7. People have arrived from all over and the briefing went on till 0200 this morning it was meticulous.

#### 0829

I briefed Superintendent Phil Trendle on 1 to 7 above. And confirmed that the train had been stopped.

Supt said that they had already received several calls reporting the stopping of the train.

Superintendent Trendle said that it had been an excellent briefing. I told the Supt that Source was away from the scene now.

### I then updated DI Hutcheson and DS Trimble.

0845

I called Source and updated them re local reaction.

0949

Call from Source but Source could not hear me.
Source repeated these calls but could not hear me.
We both tested our phones resulting in it being a fault on my phone.

1045

I contacted Source from a back up phone.

2 activists dropped out saying that they did not realise it was a direct action and thought it was just a protest.

One bloke called backed out saying he would do legal advice instead. He was not happy about being kept on the barge overnight and thought they would be returning later to do the action. He asked for everyones names to be written on a piece of paper with next of kin, addresses and contact details. This made some people suspicious of him saying that they were not happy with him holding all their names in case the police got hold of it and used it to prove a conspiracy. He was supported by a tall white guy from the West Midlands with a shaved head who said that he trusted

#### 1220

Call from Source. There has been some confusion over the earth first meeting in Nottingham next Monday. Some people thought it was Tuesday. Source has told them that it is still going ahead on Monday. Remember tasking re GM crops action in Leeds and Cambridge.

Todays action must have been funded separately because those taking part would not have had the funds. There was all new climbing equipment including a whole roll of rope (£400) and new harnesses and fittings. 40 new reflective coats flags, buckets and shovels. Hiring of vehicles and the barge to stay on overnight. Approx £2000 plus

The taskings were split into cells with only those involved in a specific roll would have been given details like the rope access men would have recce'd the bridge to know what equipment they needed. The majority of the foot soldiers did not know the venue of the action until they arrived at Goole. No one was even told where the accommodation was until they got to the Goole area.

#### 1230

DI Hutcheson updated.

Instructed to put 5x5 on re Halpin visiting Julien at his Farm.

#### 1345

Call from Source who is on the way to wedding with the marquees. Will be staying at Hope Valley Peak District. No actions or meetings planned for the week end.

#### 1810

Call from Source who is now in the Hope Valley where the telephone signal is very poor. Source will be with others tonight but just social prior to the wedding.
