Subject: Scientific and technical research

– Questionnaire on in-house police research projects in the field of police technology  
(excluding research into criminology and criminal matters)

---

## Introduction

For the further implementation of the declaration of commitment made by Ministers in Luxembourg on 13/14 June 1991 on the basis of Article 6 of the TREVI action programme, the following is recommended for the exchange of information in the field of police technology (excluding research into criminology and criminal matters):

For the field of research into criminology and criminal matters the Belgian and German delegations have prepared a questionnaire for the classification of the information received. In future the field of police technology is to be recorded using the attached questionnaire so as to enable the desired transfer of information and cooperation between the research and development agencies concerned with police technology in the European Union.

## Future procedure:

It is therefore urged that this project too should be adopted, updated at six-monthly intervals and the results made available to the Member States of the European Union. It would make sense for this task to be assumed by a single Member State, to be determined.

## Questionnaire

on in-house police research projects in the field of police technology (excluding research into criminology and criminal matters)

(Please fill in one questionnaire for each project)

### 1. General details of the research project

#### (a) Designation of project/working title

#### (b) Status

Under way ☐

Specifically planned ☐

Completed in past year ☐

#### (c) Type of project

In-house project ☐

Sponsored project ☐

Joint project ☐

#### (d) Persons in charge of project

Project co-ordinator  
(Please give full contact address)

Person responsible for research  
(Please give full contact address)

**2. Description of project**  
(Purpose, aim and practical significance of project)

where appropriate:  
preliminary work already carried out

### 3. Research method

| Method   | Sample (size) | Description of basic group as a whole | Where applicable explain selection criteria in detail |
|--|---------------|---------------------------------------|---|
| Experiment   |               |                                       |   |
| Field test   |               |                                       |   |
| Trial  |               |                                       |   |
| Research in the literature   |               |                                       |   |
| Secondary research (computer-readable data from scientific databases)          |               |                                       |   |
| Use of existing information  |               |                                       |   |
| Enquiries, individual oral interview, group interview, discussion with experts | o<br>o<br>o   |                                       |   |
| Written enquiries  |               |                                       |   |
| Telephone enquiries  |               |                                       |   |
| Other (please describe)  |               |                                       |   |

**4. Work programme/sequence/costs**

**(a) Timetable**

(Start and completion of project)

**(b) Budget allocated**

**5. Special features, comments on project**

(e.g. integrative research project involving collaboration with other research bodies; third-party funding etc.)

**6. Use of results**

(implementation of the results of the research in practice)
