

IRELAND

Please find below, the written official response from Ireland on the questions posed by the proposal for Europol to enter SIS alerts.

Question 1 - We could agree that there is an operational need, but highlight a need for clarity in terms of how this need can be progressed.

Question 2 - SIS II has the network and automation to best present instantaneous information to law enforcement end-users. However, governance of information from third-countries needs to be specified and detailed in regulations. In this regard SIS Recast will be a better option.
