RECOGNISING that the Convention signed at Dublin on 15 June 1990, determining the State responsible for examining applications for asylum lodged in one of the Member States of the European Communities, is a measure relating to the free movement of persons in accordance with the objective set out in Article 7a of the Treaty establishing the European Community;

RECALLING that for the purposes of applying the Dublin Convention, and in particular Article 15 thereof, the Council has drawn up a Convention concerning the establishment of "Eurodac" for the comparison of fingerprints of applicants for asylum ;

WHEREAS it is also necessary in order effectively to apply the Dublin Convention, and in particular Article 6 thereof, to make provision for communicating to "Eurodac" the fingerprints of persons apprehended in connection with the irregular crossing of the external border of a Member State;

WHEREAS it is also desirable in order effectively to apply the Dublin Convention, and in particular Article 10, paragraph 1 (c) and (e) thereof, to allow for each Member State to use "Eurodac" for checking whether an alien found illegally present on its territory has applied for asylum in another Member State.

HAVE AGREED ON THE FOLLOWING PROVISIONS :

Article 1

Extension of "Eurodac"

The provisions of the Convention concerning the establishment of "Eurodac" for the comparison of fingerprints of applicants for asylum, hereinafter referred to as "the Eurodac Convention", shall be extended, subject to the provisions of this Protocol, to fingerprint data on certain other aliens, for the purpose of assisting in determining the Member State which is responsible under the Dublin Convention of 15 June 1990 for examining an application for asylum lodged in a Member State, as well as for the purpose of otherwise facilitating the application of the latter Convention.

Article 2

Definitions

Unless otherwise stated, the terms defined in Article 2 of the Eurodac Convention and in Article 1 of the Dublin Convention of 15 June 1990 shall have the same meaning in this Protocol.

Article 3

Collection and communication of fingerprint data on aliens who irregularly cross an external border

1. Each Member State shall promptly take the fingerprints of every alien of at least fourteen years of age who is apprehended by the competent control authorities in connection with the irregular crossing by land, sea or air of the border of that Member State having come from a third country and who is not turned back.
2. The Member State concerned shall promptly communicate the fingerprints of any alien as referred to in paragraph 1 above to the Eurodac Central Unit, together with the other relevant data referred to in Article 5 (1) of the Eurodac Convention.

Article 4

Recording of data on aliens who irregularly cross an external border

1. Data communicated to the Central Unit pursuant to Article 3 of this Protocol shall be recorded in the central database for the sole purpose of comparison with data on applicants for asylum transmitted subsequently to the Central Unit. The Central Unit shall therefore not compare data communicated to it pursuant to Article 3 with any data previously recorded in the central database, nor with data subsequently communicated to the Central Unit pursuant to Article 3.
2. In so far as the provisions of the Eurodac Convention apply to data on an alien as referred to in Article 3 of this Protocol, references to the "Member State of origin" shall be taken as meaning the Member State which communicates such data to the Central Unit.

Article 5

Storage of data on aliens who irregularly cross an external border

1. Each set of data relating to an alien as referred to in Article 3 of this Protocol shall be stored in the Eurodac central database for [two] years from the date on which the fingerprints of the alien were taken. Upon expiry of this period, the Central Unit shall automatically erase the data from the central database.
2. Notwithstanding the provisions of paragraph 1 above, the data relating to an alien as referred to in Article 3 shall be erased from the central database immediately when the Member State of origin becomes aware of either of the following circumstances before the two-year period mentioned in paragraph 1 has expired :
 - a) the alien has been issued with a residence permit; or
 - b) the alien has left the territory of the Member States.

Article 6

Rights of the data subject

Article 13 (2) of the Eurodac Convention shall not give an alien as referred to in Article 3 of this Protocol the right to be informed by the Member State of origin of the data relating to him/her in the central database, where he/she would not have such a right under the law of the Member State of origin. If in such case the alien seeks in another Member State to be informed of the data relating to him/her in the central database, the latter Member State may do so only if it has previously given the afore-mentioned Member State of origin an opportunity to state its position.

Article 7

Comparison of fingerprints of aliens found illegally present in a Member State

1. Each Member State may communicate to the Central Unit fingerprints it may have taken of any alien of at least fourteen years of age found to be illegally present within its territory with a view to checking whether the said alien has previously lodged an application for asylum in another Member State.
2. The fingerprints of an alien as referred to in paragraph 1 shall be communicated to the Central Unit solely for the purpose of comparison with the fingerprints of applicants for asylum transmitted by other Member States and already recorded in the central database. The fingerprints of such an alien shall not be stored in the central database, nor shall they be compared with the data communicated to the Central Unit pursuant to Article 3 of this Protocol.
3. The Central Unit shall destroy the fingerprints communicated to it under paragraph 1 above forthwith, once the results of the comparison have been communicated to the Member State of origin.

Article 8
